Experience

Tenacium DC, Front-end Developer

Chennai, India
July 2024 – Present

- Developed and maintained scalable UI components using React.js, Redux, and Tailwind CSS across multiple enterprise-level applications.
- Implemented responsive designs ensuring optimal performance across mobile, tablet, and desktop.
- Enhanced performance by optimizing rendering logic, reducing page load times by 30%.
- Migrated legacy components to modern React hooks, increasing code reusability and maintainability.
- Collaborated with backend teams to integrate REST APIs and display real-time data efficiently.
- Participated in agile sprints, daily standups, and design reviews.

Atos Syntel, Software Developer

Chennai, India
Sep 2018 – Nov 2023

- Built internal dashboards and client-facing web interfaces using HTML5, CSS3, and Vanilla JavaScript.
- Developed and optimized RESTful APIs in Java Spring Boot, managing 500+ daily transactions with 99.8% uptime, reducing API errors by 25%.
- Optimized API response times by 20%, improving application performance.
- Worked closely with UI/UX teams to translate Figma designs into pixel-perfect layouts.
- Integrated third-party libraries like Chart.js and Material UI for visualizations and component enhancements.

Technical Skills

Front End: React.js, Redux, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI

State Management: Redux Toolkit, Context API

Build Tools: Webpack, Vite, Babel, npm

Back End: Java, Spring Boot, REST APIs, MySQL

Version Control: Git, GitHub, GitLab

DevOps: Docker, VSCode, Figma, Postman

Projects

DHRUV | Security Operations Center (SOC) platform

July 2024 – Present

- Redesigned UI, reducing page load time by 30%, increasing user retention by 15%, and receiving positive feedback from 90% of stakeholders.
- Improved UI performance by 25% through efficient state management using Redux.

Knowledge Genie | Gen AI powered chatbot

Apr 2023 – Nov 2023

- Enhanced and upheld RESTful web services using Java and SpringBoot and Per-

formed comprehensive unit tests to ensure compatibility across multiple web browsers.

- Coordinate with the web development team to design user interfaces for client website using HTML, JavaScript, and ReactJS.

Virtual Assistant (ChatBot) | Siemens

2022 – 2023

- Led the integration of a customer service chat functionality to answer user questions and schedule consultations, resulting in a 15% increase in leads.
- Supported the integration of an Agile-Waterfall hybrid methodology to improve the SDLC, resulting in a 15% reduction in project delivery timelines.
- Coordinated with a team of 3 to design a Chatbot application in JavaScript, which enabled users to create users and request for access through conversational chatbots.

Ticket Analytics | Web Application

2019 – 2021

- Designed, developed, and maintained the server-side logic of web applications.
- Ensured 99% uptime for application by implementing robust error handling and logging.
- Designed and optimized database schemas, queries, and indexes to ensure efficient data storage and retrieval.
- Developed and sustained RESTful APIs to facilitate communication between the frontend and backend components.

Personal Projects

AI Image Generator | React, OpenAI API, Firebase

[github/ImageGenerator](#) 

- Designed, developed my own version of AI Image Generator app in React JS. It is built using OpenAI API. This AI image generator will generate the image as per the image description that we type in the input box.

Netflix-GPT | React, Redux, Firebase

[github/Netflix-GPT](#) 

- Developed a movie recommendation app using OpenAI's API, allowing users to search for movies with AI-generated summaries.
- Implemented Redux for state management, improving efficiency in handling large datasets.
- Hosted on Firebase, managing authentication and real-time updates.

Education

Veltech University , B.Tech in Computer Science

Aug 2014 – Aug 2018

- GPA: 7.5

SUMMARY

Front-end Developer with 6+ years of experience creating dynamic, responsive, and accessible web applications using React.js, Redux, and modern UI frameworks. Adept at optimizing performance, enhancing user experience, and collaborating in agile teams. Passionate about component-based architecture, clean design systems, and frontend best practices.
